Orbit Digital

Proposal in response to RFP-2026-017: Enterprise Order-to-Cash Integration Platform
Submitted to: Meridian Foods Pvt Ltd (fictional)

1. Executive Summary and Understanding of the Requirement

Orbit Digital thanks Meridian Foods Pvt Ltd (fictional) for the opportunity to respond to RFP-2026-017: Enterprise Order-to-Cash Integration Platform. With more than fifteen years of experience delivering enterprise integration programmes, Orbit brings a depth of experience and customer trust that few providers can match. We understand Meridian's goal of connecting ERP, warehouse, CRM and invoicing systems into a seamless order-to-cash flow.

2. Proposed Solution

Orbit proposes its OrbitHub integration platform, a proven product used across our client base. The platform provides an architecture based on reusable adapters and a central orchestration engine.

The detailed integration approach for the ERP, the warehouse system and the e-invoicing portal will be finalised during the discovery phase. The list of connectors to be used is to be confirmed once the interface inventory is available, and performance targets will be defined with Meridian during design.

3. Implementation Approach and Timeline

Orbit proposes delivery in approximately eight months in four phases: Phase 1 Discovery (6 weeks), Phase 2 Build (16 weeks), Phase 3 Testing and UAT (8 weeks) and Phase 4 Go-live (4 weeks). Orbit will assign a project manager and ten consultants, and a steering committee will meet monthly. Detailed milestones will be agreed at project kick-off. A risk register will be maintained throughout the project.

4. Price Table and Assumptions

Item	Description	3-year cost (INR lakh)
Platform licence (3 years)	OrbitHub core	105.0
Implementation services	Estimated; subject to scoping	150.0
Connectors and training	Quantity to be confirmed	25.0
Support (3 years)	24x7 global service desk	40.0
Total	**Total contract price (3 years)**	**320.0**

Assumptions

- Implementation effort is an estimate and is subject to scoping after discovery.
- Payment terms to be agreed in the contract. Prices exclude GST.

5. Security and Compliance

Orbit Digital is ISO/IEC 27001 certified. Data is encrypted in transit using TLS 1.2 and at rest. Users authenticate with multi-factor authentication and access is role-based. Audit logs are maintained for administrative actions. Details of penetration testing and disaster recovery targets can be shared on

request.

6. Support Model, Relevant Experience and References

Orbit provides 24x7 support through a global service desk with a 99.9% SLA and service credits. Priority 1 incidents receive a 30-minute response time. A customer satisfaction (CSAT) score of 4.5 out of 5 and a client retention rate of 94% have been maintained over the last three years.

Orbit has completed 14 similar integration projects for manufacturing, retail and FMCG clients since 2009. Named references: Mr. V. Rao, CIO, Deccan Retail (fictional), Ms. N. Das, Director IT, Eastern Biscuits (fictional); Mr. K. Joshi, VP Technology, Coastal Foods (fictional); Ms. L. Pinto, Head of IT, Highland Tea Co. (fictional); Mr. T. Bose, CTO, Prime Dairy (fictional).
